Ok today i just set up a new part of the site where you can find Manga/Doujinshi, wallpapers, etc. We plan on adding manga's and doujinshi in both japanese and english along with wallpapers that we will be making. There will also be wallpapers that we get from our imageboard and other places on the internet there as well. All images will be related to either Anime/Manga or video games. Hope you all will enjoy the new addition.

This new addition can be found under Gallery in the menu's or you can click on the link [here](#).
